

# SCHOOL of SOCIAL SCIENCES

*where I make a difference*

*Many international studies majors choose to study abroad in order to expand their global knowledge with hand-on international experience.*

## INTERNATIONAL STUDIES

### Investigate

How has the privatization of international security impacted democratic efforts worldwide? Is peace in the Middle East possible? What impact does funding from NGO's, government and private industry have on global humanitarian efforts?

UCI's international studies scholars investigate global issues to contribute to solutions that positively impact citizens around the world.

### Innovate

Innovative solutions require innovative thinkers. International studies faculty use wide-ranging methods from technology and cultural dance performances to political science research and anthropological field work in order to understand and impact the rapidly evolving global community. Their interdisciplinary perspectives on global issues, societies and cultures inform and educate our next generation of global citizens who go on to pursue careers in international affairs, public policy, business, academic research and teaching.

### Impact

More than 800 undergraduates major in international studies at UCI, many of whom pursue studies abroad. They receive instruction from and study alongside experts whose research findings are consulted regularly in discussions on foreign policy and national security, and in nuclear proliferation and immigration debates. The program regularly sponsors public lectures featuring international scholars, dignitaries and journalists who provide new perspectives on global issues.

### Make a Difference

Your gift to international studies has the power to transform individuals and communities and truly make a difference. Contact us today or visit us online at [www.socsci.uci.edu](http://www.socsci.uci.edu) to learn how past donations have helped fund our future leaders.
