- 1) Detail may not sum to totals due to rounding.
- 2) The abbreviation "nd" indicates that there are no data available for a measure.
- 3) Section A: Regular ranks faculty are faculty holding tenured titles (or non-tenured titles in a series in which tenure may be conferred) and who fill a budgeted faculty provision. These series are the professorial series (Professor, Associate Professor, Assistant Professor, Acting Professor) and Senate lecturers (Lecturer with Security of Employment, Lecturer with Potential Security of Employment).
- 4) Section B: The "regular ranks faculty currently teaching" measure counts faculty who actually taught any portion of a course (as distinct from being in charge of, or supervising, a course but not actually teaching it) in a given academic year.
- 5) Section D: "Teaching faculty" includes the professorial series as well as: the adjunct professor series; the clinical professor series; the professor of clinical _______ series; the professor in residence series; acting professors; visiting professors; recalled professors; Senate lecturers (lecturers with security [and potential security] of employment); non-Senate lecturers (Unit 18); and students with the Associate title.
- 6) Section D: "Researchers" includes academic employees appointed to the professional research series; the project series; and the specialist series.
- 7) Section D: "Non-academic staff" includes employees appointed to the following series: administrative, budget and personnel analysis; advising services; clerical/administrative, special and mail services; computer operations; computer programming and analysis; engineering; executive program; fiscal services; laboratory and allied services; management services; managers; medical auxiliary services—miscellaneous; physical plant services—agriculture and grounds; physical plant services—maintenance; physicians and dentists; sciences; social services—clinical; social services—community; technical and operations services; technologists—clinical laboratory; and word processing.
- 8) Sources of data: UC Irvine Office of the Registrar; UC Irvine Office of Admissions and Relations with Schools; UC Irvine payroll/personnel system; UC Irvine Academic Budget Office; UC Irvine Office of Research; UC Irvine Office of Institutional Research.

- 1) Detail may not sum to totals due to rounding.
- 2) The abbreviation "nd" indicates that there are no data available for a measure.
- 3) Section A: "Master's" students are students who apply to programs in which the master's degree is the terminal degree or students who apply to doctoral programs but with the stated degree objective of earning only the master's degree. "Doctoral" students are students who apply to doctoral programs and have the doctorate as their degree objective. (They may or may not earn a master's degree on the way to the doctorate.)
- 4) Section A: Enrolled students are the number of students who enrolled at UC Irvine whether or not they enrolled in the same major as they applied for and were admitted into.
- 5) Section A: Average GRE scores are only reported if three or more students have recorded test scores.
- 6) Section B: Enrollment data includes UC students who paid fees and registered for at least one unit of credit by the census date (end of the third week) each Fall Quarter.
- 7) Section D: Primary courses are regularly scheduled, unit-bearing offerings of classes; examples include (but are not limited to) lectures and seminars. Each offering of the same course title during any year or term is reported as a separate class. In the case of basic skills-building classes, which are typically offered in multiple sections of 20-30 students each, each primary section is counted as a separate course offering.
- 8) Section D: Regular ranks faculty are faculty holding tenured titles (or non-tenured titles in a series in which tenure may be conferred) and who fill a budgeted faculty provision. These series are the professorial series (Professor, Associate Professor, Assistant Professor, Acting Professor) and Senate lecturers (Lecturer with Security of Employment, Lecturer with Potential Security of Employment).
- 9) Section D: Independent study courses are courses in which a faculty member and a student directly negotiate the content of the course and the method by which the student will meet the goals of, and receive credit for, the course. These courses include those in which master's or doctoral students register while conducting thesis and dissertation research and writing theses and dissertations. These courses typically meet on an ad-hoc basis at a location convenient to both the faculty member and the student.
- 10) Sources of data: UC Irvine Office of the Registrar; UC Irvine Office of Admissions and Relations with Schools; UC Irvine payroll/personnel system; UC Irvine Academic Budget Office; UC Irvine Office of Institutional Research.

NOTE: Race categories exclude persons of Hispanic ethnicity. Reported racial/ethnic distributions of students by level of degree, field of degree, and sex were used to estimate race/ethnicity for students whose race/ethnicity was not reported. To facilitate trend comparisons, certain aggregations have been made of the degree fields as reported in the IPEDS Fall survey: "Agriculture and natural resources" includes Agriculture, agriculture operations, and related sciences and Natural resources and conservation; and "Business" includes Business management, marketing, and related support services and Personal and culinary services.
